Lance G. Lanning (10) carries the ball past the De. Witte in the St. Louis game. Carl Muckler (22) intercepts a pass thrown by the St. Louis quarterback.

## *Athletics*

The forward wall of the Irish does a fine job of blocking as George Wilson goes back to try and spot a pass receiver.

The Sacred Heart line opens up a big hole for Michael Leaver as he makes a big gain during the St. Thomas game.

Carl Michalek takes a pass from Steve Van Ooteghen and runs it down the field, only to be tackled by the St. Thomas players back.

Hurry up Steve! Steve Van Ooteghen puts his foot into another successful extra point as two defenders make a futile attempt to block the kick.

Dave Loh drives over a St. Thomas defender to register two more points for the shamrocks.

In a battle for this rebound, Art Mier out-figures two SL Agatha players to gain possession of the ball.

Carl Michelak, our high-jumping sophomore center, goes up to bring down this rebound.

George Wilson drives in all alone to score a two point against St. Mary's.

The crowd counts: It's a jump ball as Carl Michelak tips the ball to Dave Toth

Carl Michalek is fouled as he shoots his jump shot in the Mt. Clemens St. Mary's game

Ray Levandowski drives around man and goes in for a lay-up.

Nice tackle Cliff! Cliff Beaudouin looks like he's using football tactics to help bring the reserves another victory

Doug Baker moves in to grab this loose ball in a reserve game with St. Agatha

Although there are many restricted arms to the scene, Cliff Beaudouin seems to be able to grab this loose ball

As Joe Redding shoots during a reserve game with St. Thomas, it looks as though a line is forming for the rebound

**LIVE  
HAPPILY  
EVER  
AFTER—  
ELECTRICALLY**

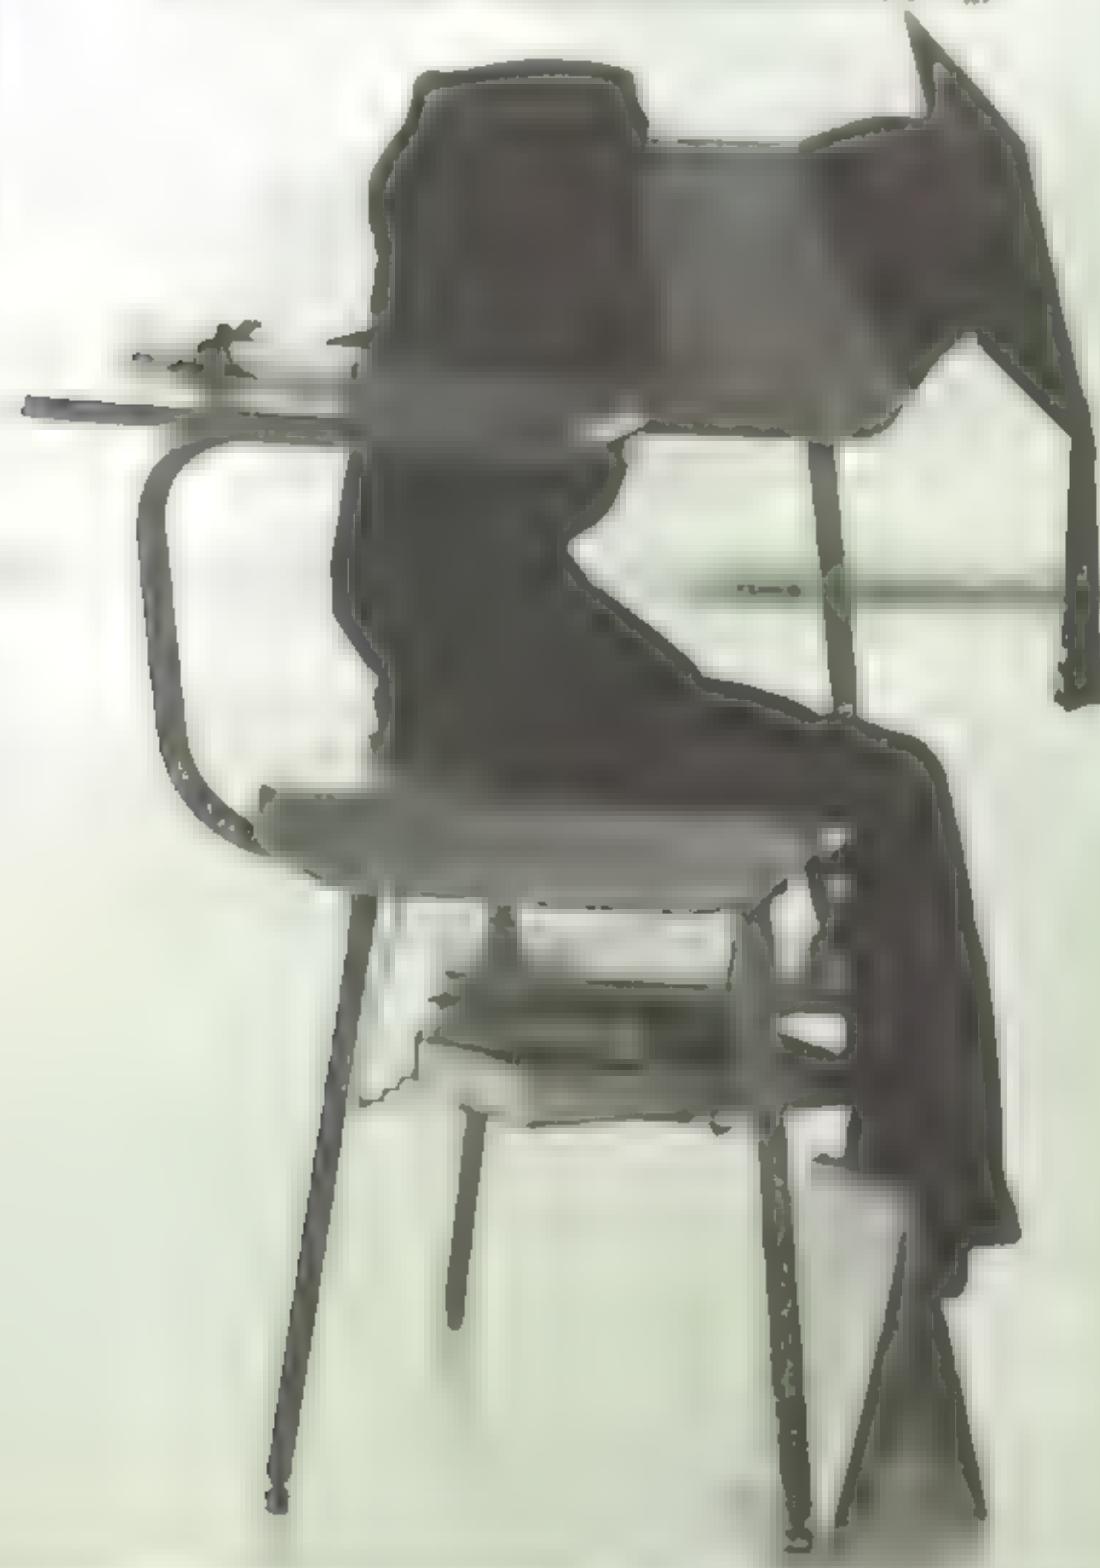

*Are you coming back for more education? Getting a job? Establishing a home? What's all this got to do with electricity? Just this: Whatever the future brings you, electricity will be there to help.*

*For right now we are entering a whole new era of electric living. The home you start will be easier to take care of, more fun to live in, with help from electric appliances. Complete electric home heating, practical and convenient, is growing every day. Your job will be smoother, too, with electrically operated equipment and an increasing array of electronic devices. Even your education benefits from continuing research in many fields related to electricity. One day, you personally may help to create new and better ways to do things electrically.*

*So no matter who you are, where you are or what you're doing, your future will continue to be brighter, your life will be lighter through electricity.*

## "There's a girl I'd like to meet"

"I've been watching all evening how pleasant and charming she is to everyone. I'm told her name is Betty, and she works for the telephone company."

Yes, Betty, through her day-to-day training on her telephone job, has gained poise and confidence—real assets to an attractive, winning personality.

When she started her job, Betty had no experience in telephone work. But she was trained with other beginners by Michigan Bell's friendly, understanding supervisors. Today Betty's proud of her work; enjoys a fine salary, regular wage increases, and many new friends.

What more could any girl ask in a job? Get in touch with us—perhaps you'll find there's one of those interesting telephone jobs for you.
